4020 North Clarksville Road
Waynesville, OH 45068

Dear Mr. Lee:

Enclosed for your information is a Pest Alert describing the Emerald Ash Borer and a map illustrating where the Ohio Department of Agriculture has been searching for EAB (Detection trees are trees girdled to attract EAB that might be in the area, DTTD are detection trees taken down and no EAB found, and a Positive from Detection Tree is where the EAB has been found in one of the detection trees). As you can see on the map there are many detection trees yet to be examined.

We have also enclosed a small poster about the risk in spreading EAB through the movement of firewood, especially for use at campgrounds.

More information about EAB can be obtained from the following websites:

www.na.fs.fed.us/fhp/eab/

www.ohioagriculture.gov/eab/

www.aphis.usda.gov/ppq/ep/eab/

Please contact Rod Whiteman at 304-285-1555 or Karen Felton at 304-285-1556 if you have any questions.

Sincerely,

JOHN W. HAZEL
Field Representative
Morgantown Field Office
